Mississippi River Health Alliance
Carleton Place & District Memorial Hospital

Position: Maintenance Mechanic	**Union/Non-Union:** IUOE
Job Status: Part Time	**Hourly Rate:** $31.18
Reports to: Manager of Environmental Services & Facilities	**Start Date:** ASAP

Almonte General Hospital and Carleton Place & District Memorial Hospital created the Mississippi River Health Alliance (MRHA) in 2016 to formalize their commitment to work together to improve each patient and resident's overall health care experience through a strong, coordinated system of care. An integrated Senior Team leads the two Hospitals, as well as Fairview Manor and Lanark County Paramedic Service which are operating divisions of AGH. Over 600 caring staff, physicians and midwives provide excellent primary, acute and long-term care to citizens of Lanark County, West Ottawa and Renfrew County.

We are currently seeking a **Part Time Maintenance Mechanic**. The main function of the position is to ensure the safe and efficient operation and maintenance of the Hospital's buildings, systems, power plant, equipment and grounds. The incumbent is responsible for the day-to-day operation of the Hospital's preventative maintenance program, and also plays a significant role in the fire and disaster program, and Hospital security. The position works closely with staff in other departments, suppliers, contractors, and other maintenance mechanics, as is necessary.

Basic Requirements

- Certification in Facilities Maintenance or Maintenance Mechanics from a recognized College
- Three (3) years' experience in facility, equipment building systems, plant & HVAC maintenance and preventative maintenance. Must have a valid driver's license.
- Previous experience in the maintenance field, including the operation and repair of building systems, equipment and grounds equipment.
- A demonstrated knowledge of preventative maintenance programs.
- A demonstrated knowledge of the use of tools and woodworking equipment, blueprint reading, and job and building specifications.
- A broad basic knowledge in several of the following areas: carpentry, painting, plumbing, electrical work, construction & HVAC.
- Good oral and written communication skills.
- A demonstrated ability to test water in the boiler systems and to maintain the proper chemical levels.

Preferred Qualifications

- Previous hospital experience in the maintenance field.
- Previous experience as a plumber, electrician, carpenter, painter, refrigeration technician, etc.

Qualified candidates are invited to submit their resumes to:
Human Resources: careers@mrha.ca

We thank all candidates who apply. Only those selected for an interview will be contacted.

We are committed to inclusive and accessible employment practices – If you require accommodation throughout any part of the recruitment process, please contact Human Resources to let us know how we may assist you.

Please note that according to the MRHA Vaccination Policies, all applicants must be fully vaccinated unless they can provide the proof of a valid medical contraindication or exemption on the basis of protected grounds under the Ontario Human Rights Code in order to be considered for any staff or volunteer opportunities. Upon hiring, applicants must provide the proof of either government issued documentation proving they have been fully vaccinated, or present supporting documentation of a valid medical contraindication or exemption under Ontario Human Rights Code.

Mississippi River Health Alliance (MRHA) is committed to fostering a culture of diversity, equity, inclusion and belonging. We believe that embracing diversity in all its forms enriches our workplace and enhances the quality of care we provide to our patients, residents and community. We are dedicated to creating an environment where every individual feels valued, respected and supported regardless of race, ethnicity, gender, sexual orientation, religion, age, ability or background. We aim to create a workplace where everyone can thrive and contribute to our shared mission of providing integrated health care that meets the evolving life-long needs of our communities.
